G. Roque P. Torres

DEV FULL-STACK, UX-UI

Hi! My name is Roque, and I'm a Full Stack Developer. After 10 years working as a physiotherapist, (7 of them in an ICU), I turned myself into what I always did as my passion. I've finished the Full Stack dev training in SocraTech and I'm studying Multimedia Engineering at the university, and I've been working in IT for three months now.
